- New!** **Proposition 40 Project Award Information Database**  
The Resources Agency, working through the Department of Parks and Recreation, has created a public website through which all departments administering Proposition 40 funds will report their project award information. This website has been designed so members of the public can easily obtain information in a single location about Proposition 40-funded projects in their community. The information can be accessed by city, county, and zip code. Advanced searches, including the use of key words, can also be performed. **Financial Assistance - 2003 Consolidated Grants**

**2003 CONSOLIDATED GRANTS**

In response to stakeholder requests to integrate and coordinate related grant programs, the 2003 Consolidation of Watershed Protection, Water Management, and Nonpoint Source Pollution Control grants made available up to \$138 million in grants from eight interrelated programs administered by the SWRCB Division of Financial Assistance. Consolidation reduced application efforts and better integrated SWRCB program goals with those of our partner agencies. The 2003 Consolidated Grants are funded from Proposition 13, Proposition 50, and federal appropriations. The eight consolidated programs are as follows:

1. Proposition 13 Nonpoint Source Pollution Control Program
2. Proposition 13 Coastal Nonpoint Source Control Program
3. Proposition 13 Watershed Protection Program
4. Federal Clean Water Act Section 319 (h) Nonpoint Source Implementation Program
5. Proposition 13 CALFED Drinking Water Quality Program
6. Proposition 50 CALFED Drinking Water Quality Program
7. Proposition 13 CALFED Watershed Management Program
8. Proposition 50 CALFED Watershed Management Program

Please see the links below with information and documents related to the 2003 Consolidated Grants. For questions, please contact Mark Magtoto at (916) 341-5481 ([magtmo@swrcb.ca.gov](mailto:magtmo@swrcb.ca.gov)) or Jim Marshall at (916) 341-5636 ([marshall@swrcb.ca.gov](mailto:marshall@swrcb.ca.gov)).

Integrated Regional Water Management Grant Program

The Integrated Regional Water Management (IRWM) grant program, funded by Proposition 50, provides \$500 million for competitive grants for projects to protect communities from drought, protect and improve water quality, and improve local water security by reducing dependence on imported water. Funding for the IRWM program is split between the Department of Water Resources (DWR) and the SWRCB. The agencies will utilize a joint application process for awarding grants.

**Proposition 50 - Integrated Regional Water Management and Groundwater Storage Programs**

Proposition 50 (Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002) was passed by California voters in November, 2002 and amended the California Water Code to add, among other articles, Section 79560 et seq. which authorized the Legislature to appropriate funding for competitive grants for Integrated Regional Water Management (IRWM) and Groundwater Storage projects.

Chapter 8 of Proposition 50 provided \$500 million for IRWM projects. The total amount available was split between Department of Water Resources (DWR) and the State Water Resources Control Board (SWRCB). Both agencies are to award grants through a joint application process. The guidelines for the grant application and standards for what constitutes an IRWM plan will be developed with public input. The links below provide information on the grant program, grant process, and upcoming public input opportunities.

**State: Reuse Assistance Grants**  
Posted by: Sarah Weiner on Monday, December 15, 2003 - 01:58 PM

The Reuse Assistance Grants Program is a cyclical and competitive program that was developed by the California Integrated Waste Management Board to provide the initiative and incentives for local public agencies to promote and apply the concept of reuse by developing or expanding reuse activities at the local public agency level.

For the purposes of the Reuse Assistance Grants, a "local public agency" is a city, county, or regional agency that has obligations to develop and implement waste reduction programs pursuant to the requirements set forth in Public Resources Code § 40900 et seq. All local public agencies in California are eligible to apply for funding, and may apply individually or regionally. Partnerships between jurisdictions and with private entities (e.g., businesses, nonprofits, etc.) are allowable.
